SUMMARY

Results-driven Odoo and Python Developer with 3+ years of hands-on experience in enterprise resource planning systems, custom module development, and data analytics. Proven expertise in full-stack development, system integration, and delivering scalable business solutions. Strong foundation in computer science with demonstrated ability to solve complex technical challenges and optimize business processes.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, SQL, XML, HTML/CSS, Java, C++

Frameworks & Technologies: Odoo (v13-v18), PostgreSQL, RESTful APIs, ORM

Development Tools: Git, GitHub, Docker, Linux, VS Code, PyCharm

Odoo Expertise: Custom Module Development, Business Logic Implementation, Report Generation, API Integration, Database Management, Migration, Performance Optimization

Soft Skills: Problem Solving, Technical Documentation, Code Review, Client Communication

PROFESSIONAL EXPERIENCE

Odoo Developer

August 2023 – Present

Nexus Incorporation

Kathmandu, Nepal

- Designed and deployed 30+ custom Odoo modules across Sales, Inventory, Accounting, and HR domains, improving operational efficiency by 35% for enterprise clients
- Architected and implemented complex business workflows and automation rules, reducing manual processing time by 40% and minimizing human errors
- Integrated third-party APIs and payment gateways with Odoo ERP system, enabling seamless data synchronization and real-time transaction processing
- Optimized database queries and implemented caching strategies, improving system performance by 50% and reducing page load times from 3s to 1.2s
- Led migration projects from Odoo v13 to v18, ensuring zero downtime and data integrity across 10,000+ records
- Developed comprehensive technical documentation and conducted knowledge transfer sessions for 5+ team members

Data Analyst

June 2023 – August 2023

Centre for Sustainable Development Studies (CSDS) Pvt. Ltd.

Kathmandu, Nepal

- Analyzed complex datasets containing 50,000+ records using Python (Pandas, NumPy) to extract actionable insights for sustainable development initiatives
- Created interactive dashboards and data visualizations that communicated key findings to stakeholders, influencing policy recommendations
- Automated data cleaning and preprocessing pipelines, reducing manual data preparation time by 70%
- Conducted statistical analysis and predictive modeling to identify trends in environmental and social development metrics
- Collaborated with research teams to design data collection methodologies and ensure data quality standards

EDUCATION

Bangalore Technological Institute

Bangalore, India

Bachelor of Technology in Computer Science

2019 – 2023

- Relevant Coursework: Data Structures, Algorithms, Database Management Systems, Software Engineering, Web Technologies, Machine Learning, Cloud Computing
- Academic Projects: E-commerce Platform (Django), Inventory Management System (Python), Machine Learning Classification Models

KEY PROJECTS

Multi-Company ERP Solution | *Odoo, Python, PostgreSQL*

2025

- Developed enterprise-grade multi-company ERP system with centralized dashboard and inter-company transactions
- Implemented role-based access control (RBAC) system securing data for 30 + users across 5 companies
- Built custom reporting engine generating 20+ financial and operational reports with drill-down capabilities

API Integration Framework | *RESTful APIs, Python, JSON*

2025

- Developed reusable API integration framework connecting Odoo with Aakash Sms, Sparrow Sms
